

It Really Works!

University and independent research confirm the efficacy of this product. Test results prove TyraTech Naturals insect spray kills in less than 30 seconds. The following chart shows superior or equal performance when compared to leading synthetic pesticides.

Roach killing time (seconds)	
TyraTech Naturals™*	23.5 seconds
Synthetic Insecticide A*	22.1 seconds
Synthetic Insecticide B*	48.2 seconds
Synthetic Insecticide C**	36.4 seconds
Synthetic Insecticide D***	79.5 seconds

Testing locations: University of Florida, Snell Scientifics
*Tested on Ohio and Auburn strains
**Tested on Ohio, Auburn and VPI Normal strains
***Tested on Ohio strains only

Research suggests that daily use also repels insects. When you smell the clean scent, TyraTech Naturals is keeping insects away.

Conceptual representation of performance.
